17	0	Marathon Products, Inc. certifies that this product was calibrated in accordance with Marathon Products, Inc. calibration procedures during the manufacturing process. These processes are quality controlled and are designed to assure that the instrument will meet published specifications, as well as, highest quality operational standards.									
18	0	Marathon Products, Inc. further certifies that the measurement standards and instruments utilized during the calibration of this product are traceable to the United States National Institute of Standards and Technology (NIST).
